

Start using our evidence-based investment approach

Founded in 1980, Ned Davis Research is a leading independent research firm with clients in over three dozen countries. Our clients include professionals from global investment firms, banks, insurance companies, mutual funds, hedge funds, pension and endowment funds, and registered investment advisors. Our models are derived from our evidence-based research which blends macro, fundamental, behavioral, and technical indicators using a proprietary analytical platform for great flexibility and customization. Ned Davis Research is an SEC registered investment advisor.

A systematic, evidenced-based approach to sector allocation in an attempt to keep you on the right side of major market moves and avoid major allocation mistakes.

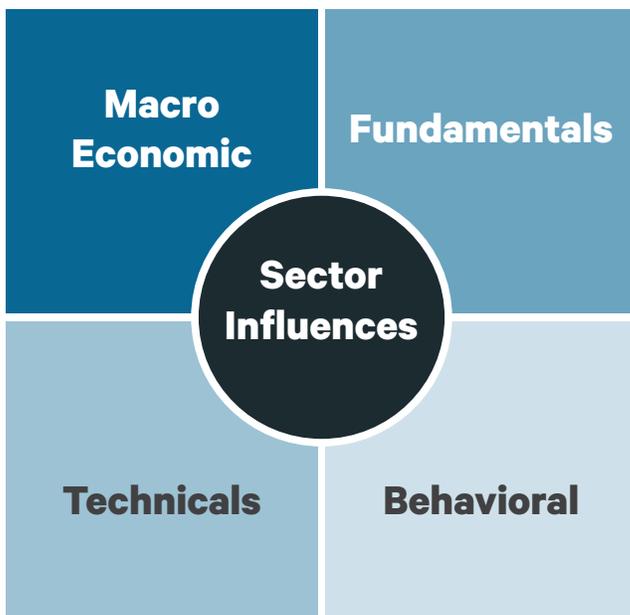

About the strategy:

Each month, sector-specific indicators are combined to:

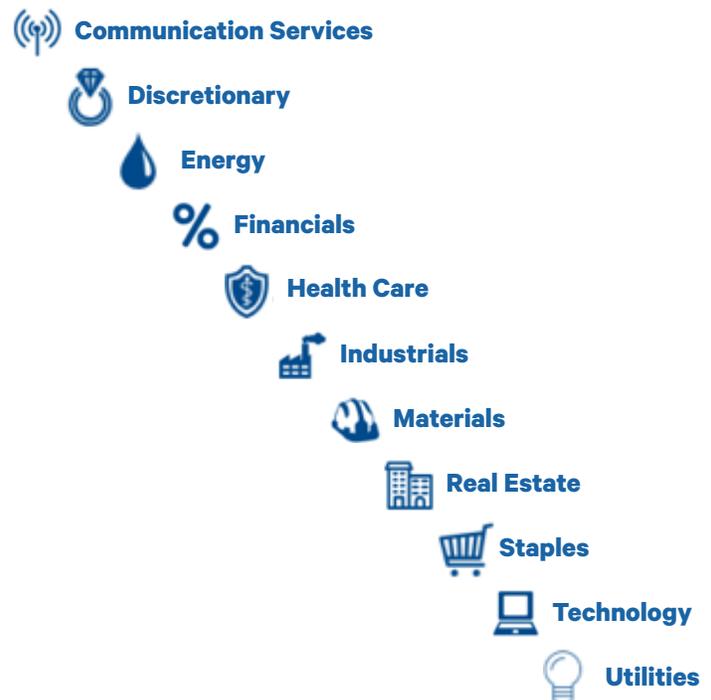

- Evaluate the relative attractiveness of eleven equity sector ETFs within the U.S. large-cap space
- Reallocate assets from sectors with unfavorable characteristics to sectors providing the greatest opportunities
- Protect capital by allocating to defensive sectors during large market declines

The strategy's benchmark is the S&P 500 Total Return Index.

Disciplined Framework Drives objective decision
